SKILLS

- **Backend, .NET & APIs:** C#, .NET 8, .NET Core 6, ASP.NET Core, ASP.NET MVC, Microservices, RESTful APIs, FIX Protocol, LINQ, T-SQL
- **SQL & Databases:** MS SQL Server, SQL stored procedures, SSIS, SQL jobs, Entity Framework Core, Dapper, MySQL, SQLite, DynamoDB
- **Messaging, Trading & Integration:** Amazon SQS, Amazon SNS, IBM MQ / Amazon MQ, FIX integrations, Quartz Scheduler, Autofac, OAuth, MailKit
- **Front-End:** React, TypeScript, Angular 12+, HTML5, CSS3, WPF, WinForms
- **Cloud, CI/CD & Observability:** AWS, ECS, Docker, Ubuntu/Linux, Git, GitLab CI/CD, Terraform, Splunk, Kibana, CloudWatch
- **Testing, Security & Practices:** Unit testing, End-to-end flow validation, API authentication, Rate limiting, Blacklisting, Root cause analysis
- **AI Tools:** Claude, Antigravity, Microsoft copilot w/ Power Automate

EXPERIENCE

OneRock Infotech Software Engineer · Mumbai · Hybrid Nov 2024 — Present

- Developed C# microservices in .NET 8, using Autofac for dependency injection, Quartz Scheduler for internal cache refresh, and FIX protocol integration with proprietary trading software to enable reliable communication with the FIX engine.
- Integrated and stabilized FIX connectivity for electronic trading venues including Bloomberg with dark pool support, MarketAxess, Liquidnet, TradeWeb, and Bonds.com, configuring and validating sessions from development and staging through production go-live.
- Delivered loan and bond settlement message flows to ClearPar and CTM, mapping entity identifiers, supporting multiple trade types, and resolving stuck allocations by synchronizing commitment amounts between the trade blotter and settlement platform.
- Implemented asynchronous messaging between .NET microservices using Amazon SQS and SNS, then improved settlement reliability with deadlock retry logic and self-healing message-bridge recovery for resilient IBM MQ connectivity during broker disconnects.
- Built a React and TypeScript single-page support dashboard for operations teams, providing real-time visibility into trade processing stages and failed trades for triage, deployed as a static application on AWS S3.
- Debugged React and TypeScript UI issues, performed root cause analysis, and validated end-to-end flows to improve application stability.
- Wrote clean, maintainable .NET code with unit test coverage across business-critical service logic.
- Supported cloud-native services across AWS, ECS, Linux, SQL, and Splunk for deployment, monitoring, and production troubleshooting.

- *.NET 8, React, TypeScript, Autofac, Quartz, SQS/SNS, FIX Protocol, MarketAxess/Bloomberg/TradeWeb, ClearPar & CTM, Geneva, IBM MQ, ECS, AWS, SQL, Splunk, Linux*

Crimson Interactive Software Engineer · Mumbai • Hybrid

May 2023 — Nov 2024

- Revamped the AfterSales module using Angular 12 and .NET 6 Core APIs running on Docker, improving user experience and contributing to a 50% increase in aftersales.
- Developed an Angular dashboard for BI and BA stakeholders, exposing inquiry and assignment status to help track inquiries converted into potential clients.
- Built and integrated a backend API for the marketing page, reducing group account creation time and adding blacklisting, rate limiting, authentication, and API security controls.
- Built an external-facing WeChat API that enabled Chinese users to check inquiry and assignment status through WeChat.
- Optimized redundant API calls in the Fapiao invoice Windows service, reducing annual tax-related cost by ¥5,000.
- *ASP.NET MVC, 4.5X Framework, .NET Core 6, Angular 12, Docker, Linux, AWS, SQL, Kibana*

Tata Consultancy Services Assistant Software Engineer · Hyderabad •

April 2021 — May 2023

Remote

- Developed in-house .NET Core and MVC web applications, implementing OAuth-based MailSent functionality through Azure App Registration and MailKit.
- Maintained and enhanced SQL stored procedures, views, SSIS packages, and SQL jobs based on client and business requirements.
- Deployed code changes to the IIS server using NANT/Git tools.
- *ASP.NET MVC, Azure Web Apps, Git, SQL*

EDUCATION

Pillai HOC College of Engineering B.E. in Information Technology

Jun 2020

- GPA: 7.1 / 10

AWARDS & CERTIFICATIONS

- Tata Consultancy Services : Client appreciation award for annual year of 2022-2023
- Crimson Interactive : Raising Star and Upcoming Crimsonite award for annual performance in 2023-24
